

The Finest Operator-Assisted Service Available Today

Our “white glove” service helps you structure and handle your most challenging conference calls with a scalable, tailored solution. Whether your audience is a small team of executives, or thousands of attendees on an earnings call, ConferTel brings everyone together in one effectively planned, managed and executed event.

BEST-IN-CLASS FEATURES

- **Operator Dial-Out**—Initiated by having an operator dial-out to participants and connect them directly to the conference.
- **Dial-In**— Enables participants to dial a toll or toll-free phone number to join the meeting. An operator greets and gathers any requested information then places them into the conference.
- **Concierge Services**— A conference specialist will provide speaker training, rehearsal and pre-conference coordination. Operator will open the call with special script introducing speakers, custom branded greeting is available to welcome attendees.
- **Pre-Post Conference (Green Room)**— Segregates the presenters from the conference participants for confidential coordination. Post conference allows the presenter team to debrief privately following the call.
- **Q&A with Priority Queuing** — Participants place themselves in the queue simply by pressing a button on the telephone keypad. Operator will coordinate muting and un-muting the question queue.
- **Online Registration**—Branded online registration page helps manage attendee registration quickly. Captures user-defined participant data for easy identification on reports from Q&A, polling and attendance.

“ConferTel is Fantastic! I work with so many different vendors in different areas and ConferTel is far and away the best in customer service.”

M. Cawley, Medical Education Professional
